## EDUCATION

### Bachelor's Computer Science FAST NUCES

08/2017 - 07/2021

Faisalabad

## WORK EXPERIENCE

### Reactjs Developer Native Systems LTD

09/2021 - 12/2023

Private Firm

Islamabad

*worked on four projects as a front-end engineer.*

- Translated complex Figma designs into functional React components, maintaining design accuracy and user experience.
- Integrated APIs seamlessly into the frontend, enabling real-time data display and enhancing application interactivity.
- Collaborated cross-functionally with designers, backend developers, and product managers for cohesive project execution.
- Optimized application performance through techniques like code splitting and lazy loading, resulting in faster page load times.
- Followed documentation to always remain up-to-speed on what needs to be updated in response to new release versions.
- Led the implementation of significant frontend features, including interactive forms and dynamic data visualization.

### Full Stack developer Ultimate Outsourcing LTD

03/2023 - Present

Private Firm

Bahawalpur

*Achievements/Tasks*

- End-to-End Application Development:** Successfully designed, developed, and deployed full-stack applications, taking ownership from concept to deployment, resulting in streamlined user experiences and efficient workflows.
- Efficient Database Design:** Designed and implemented robust database structures, optimizing data storage and retrieval processes, which contributed to improved application performance and reduced query response times.
- Cross-Functional Collaboration:** Collaborated seamlessly with frontend and backend teams, bridging communication gaps and ensuring alignment on project goals, resulting in cohesive and well-integrated software solutions.
- Frontend and Backend Integration:** Integrated frontend interfaces with backend APIs, leveraging RESTful endpoints and handling data transfer efficiently, ensuring seamless interaction between user interfaces and server operations.
- Responsive UI Development:** Created responsive and visually appealing user interfaces using modern frontend technologies, enhancing user engagement and accessibility across various devices and screen sizes.
- Server-Side Logic Development:** Developed server-side logic and APIs using appropriate frameworks and languages, implementing user authentication, data manipulation, and efficient routing to support application functionality.
